18 Nov 2016

To All Traders

Dear Sir/Mdm

INCLUSION OF NEW WILDLIFE AND TIMBER SPECIES ON CITES

This is to inform you about the inclusion of new wildlife and timber species on Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES).

- Singapore is a Party to the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES), which is an international agreement to ensure that trade does not threaten species with extinction At the 17th Meeting of the Conference of the Parties to CITES (COP17), 24 Sep 5 Oct 2016, Johannesburg (South Africa), the meeting adopted amendments to the CITES Appendices which list the species that are protected under the Convention.
- We wish to inform you that certain reptiles, amphibians, fish and plants including timber such as rosewood species are included under CITES' controls, which means that international trade (ie. import, export/re-export and transit) of these animals and plants including live specimens, their parts and products (unless specifically exempted), require CITES permits.
- 3 Please refer to the following key species traded through Singapore, for noting:
 - a) The transfer of African grey parrots (*Psittacus erithacus*) and Pangolins (*Manis* species) from CITES Appendix II to I, which would prohibit commercial trade (including trade in parts and products)will enter into effect on **2 Jan 2017**.
 - b) The inclusion of Clarion angelfish (*Holacanthus clarionensis*) and Hong Kong warty newt (*Paramesotriton hongkongensis*) under CITES Appendix II will enter into effect on **2 Jan 2017**.
 - c) The inclusion of rosewood (*Dalbergia* species, *Pterocarpus erinaceus*) (including parts and products such as furniture) under CITES Appendix II will enter into effect on **2 Jan 2017**.
 - d) The inclusion of the devil rays (*Mobula* species) under CITES Appendix II will enter into effect on **5 Mar 2017.**
 - **e)** The inclusion of the silky sharks (*Carcharhinus falciformis*) and thresher sharks (*Alopias* sp.) under CITES Appendix II will enter into effect on **5 Oct 2017.**
- 4 Please refer to the following Notification for the full list:
 - f) https://cites.org/sites/default/files/notif/E-Notif-2016-057.pdf.

g) https://cites.org/sites/default/files/notif/E-Notif-2016-061.pdf

- For the list of product codes to be used in your TradeNet declarations for the species, please refer to the table in **Annex A** or visit the AVA homepage (www.ava.gov.sg). The revised CITES Appendices will be published on the CITES website (www.cites.org).
- If your company has existing stocks of the species or related parts and products to declare, please submit the declaration form and return to AVA by **1 Dec 2016**. This is to facilitate the issuance of CITES permits if your company plans to re-export the pre-Convention stocks after 2 Jan 2017. If we do not receive your declaration of existing stock by 1 Dec 2016, any application for CITES permits to export/re-export your shipment would be rejected or delayed.
- 7 Should you require further clarification on the above matter, please feel free to contact the following officers:-

Section	Name	Contact no./Email
